CERTIFICATE No. 22/5159/01/0161/B

Has obtained EU TYPE EXAMINATION in compliance with what is set out in Annex V (module B) in Regulation (EU) 2016/425 and in agreement with the applicable test procedures and technical specifications

Protective equipments against falls from a height, lanyard for work positioning, according to the following standard/s: EN 358:2018. Personal protective equipment for work positioning and prevention of falls from a height. Belts and lanyards for work positioning or restraint.

Having achieved the performance requirements specified in conformity assessment report No. **2024AT0398UE** and the PPE's Technical Documentation.

Description of the PPE:

The PPE model 237 consists of a work positioning lanyard intended to be used for the prevention of falls from heights.

The model incorporates a two-meter rope with textile eyelets at both ends, one of which includes a metal connector. A length adjustment device is integrated along the rope. Additionally, the rope includes a blue sleeve or black sleeve with a yellow 0.8-meter line to prevent abrasion.

The PPE is marketed in black and yellow rope or black and blue rope.

The materials that form the PPE, are described in the conformity assessment report nº **2024AT0398UE**.

The PPE is available with the following variants:

237 PRO, which differs from the original in the colour of the rope, which in this case is black and blue, and has an aluminium connector.

It shall be the manufacturer's responsibility to provide specific information of this certificate and the tested levels of protection.

The CAT. III PPE shall only be used in conjunction with one of the conformity assessment procedures according to module C2 or module D described in article 19 letter c) of the Regulation (EU) 2016/425.

This certificate cancels and replaces the previous certificate with number 22/5159/00/0161
