| Applicant                        | Trafimet Group S.P.A<br>A Socio Unico<br>Via del Lavoro 8<br>36020 CASTEGNERO (VI)<br>ITALY                                                                                                   |
| Identification of the applicant  | SA                                                                                                                                                                                            |
| Product type                     | Automatic welding filter, variable shade                                                                                                                                                      |
| Model name                       | SACIT P850                                                                                                                                                                                    |
| Standard(s) /<br>technical rules | Essential requirements according to<br>Annex II of the PPE-Regulation (EU) 2016/425<br>EN 379 : 2003 + A1 : 2009                                                                              |
| Test report(s)                   | 1025-ECS-18 / MR 10252-ECS-18<br>2262-ECS-21 / MR 22622-ECS-21                                                                                                                                |
| Specifications                   | Optical class: 1<br>Diffusion of light class: 1<br>Variations in luminous transmittance class: 1<br>Angle dependence of luminous transmittance: 2<br>external shade adjustment, grinding mode |
| Marking                          | 4 / 9-13 SA 1/1/1/2/379 CE                                                                                                                                                                    |

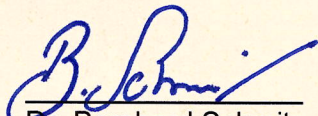

Herewith, ECS certifies that the named model complies with the essential requirements for health and safety as they are provided by the European Regulation (EU) 2016/425 for Personal Protective Equipment. This certificate is based both / either on the test results as they are summarized in the named test reports, and/or on the technical documentation as it is delivered by the manufacturer. The applicant / manufacturer agrees to the General Business Rules of the ECS GmbH and to additional agreements as they are named in the application for conformity assessment.

The eye-protection device is to be marked as assigned. Either / both the frame and/or the ocular, spectacle, goggle or shield must be signed, as appropriate. If different markings have been assessed, the lowest marking must be applied, respectively. The validity of this EU type-examination certificate will expire on the date as mentioned below, and/or if the manufacturer modifies the safety-relevant properties of this product with comparison to the tested one and/or if the requirements in the standards or technical rules will be revised and/or tightened.

Name, address and identification number 1883 of the notified body ECS are to be indicated in the information brochure of this product.

**This EU type-examination certificate is valid until 2027-09.**
